# The Mountain Run

by Chris Davis

Every once in a while, us flatlanders feel obligated to make a metal detecting run up on the ski slopes in the Colorado mountains to search for items inadvertently lost by careless skiers. (Interestingly, one of the most commonly lost items are zipper pulls. Skiing is obviously a violent sport). With the pinched nerve in my back, this was probably not the smartest of moves, seeing as I was scheduled to head off on my annual England metal detecting tour in less than a week and a half. But, I have never claimed I was smart, just good looking.

To compound this less than smart move, I decided to trek into a rather remote area. Most of the easy access areas have been hunted heavily, there is not much there and it apparently takes years to replenish. So, weak minded fool that I am, off I went, trudging up the mountain on a dead-head walk in. The thin air, steep incline and loose rocks/gravel made the hike a challenging and exhausting affair. It took me an hour to get up to my starting point. I did not even turn my machine on until I got up there.

As I stood there panting, I looked behind me and noticed a small woman hiker. So, I was not the only one silly enough to be up there, but she was not breathing nearly as heavily as I was. I noticed (I am very observant) she had a small parrot on her shoulder. Apparently, she regularly makes 10 mile hikes in the mountains, and always takes her pet parrot for company and someone intelligent to talk to. When the bird gets cold, she just sticks it under her jacket. I got to say, hiking with a bird was a new one for me.

Anyway, after her departure, I got back to detecting. Only. I then noticed I had made a strenuous hike all the way up there,

*(Continued on page 4)*

*(Continued from page 3)*

and managed to forget my kneepad at the house, which is critical on the rough, rocky ground. My, my, my. What a revolting situation. But, a little improvisation saved the day. I happened to have a roll of adhesive tape in my pack, and I will not say where I got the foam rubber, but taping the foam rubber to my pants knee saved the day. I was using my XP Deus II machine with the NERO2 program developed by a friend of Gary Blackwell's. I moved the reactivity setting down to 1.5. I really did not look at the VDI much

and dug pretty much everything with a good beep.

In the first 15 minutes I had found \$2.15 in change (which is good, real good). As I had never been able to make it to the top of the ski run, I worked up under the ski lift, finding a nice amount of change (I had hoped to find jewelry, but it was not to be), then started gridding the adjacent slope down. By the end of the hunt, I had accumulated \$25 in change (which is excellent) and 35

zippers. I had also found my 94<sup>th</sup> career gold ring. The ring was English, and I just love English hallmarks, which really provide a good amount of information about the ring. This ring was 9K (.375) gold, had a Birmingham Assay mark and was made in 2000. I was pleased. Oh yes, it also brings my ring finds for the year up to 195. I may well make 200...

The walk back down the mountain was difficult in a different way from the walk up. It was much harder on the legs, feet and toes. But I made it.

I was wondering if I was going to be able to get out of bed the next day. Much to my surprise, my back felt better than it had in months. Maybe I have a chance to survive my England tour this year. Maybe. But, it has got to be better than my last trip when I was just recovering from kidney stone surgery. On that trip, I spend half my time laying on my back in the field staring up at the sky. Gosh, metal detecting is fun!

# Double Bingo Hunt

## by Dan Pierson

Twenty-four hunters gathered on Sunday August 13th to try their luck at a very large bingo game with just a hint of 7Eleven thrown in. Since it was the middle of August, extreme temperatures were expected and Robby Ferrufino Park was outfitted with several shelters, ice cold soda and lots of water. Fortunately, the weather was just about perfect for detecting with moderate temperatures and a light breeze.

The field was planted with a selection of silver coins, buffalo nickels, lots of modern coins, one SpyderCo token and 150 pennies marked with two sets of bingo numbers. A small, unauthorized, 7Eleven satellite store was set up adjacent to the hunt field. The 7Eleven store had only one feature, a "Take-A-Penny" "Leave-A-Penny" tray that was stocked with ten of the bingo pennies.

Special prizes donated by my mother were to go to the first five hunters to collect tokens marked with the letters B-I-N-G-O. Statistically, it was unlikely that five or six letters would spell BINGO so hunters were allowed to visit the 7Eleven store, leave a penny and take a penny. The 7Eleven store was very popular and had a long line at times. After the first five lucky hunters completed a BINGO, the store was closed and the ten bingo pennies from the tray were returned to the hunt field. After about 45 minutes, the hunt field was fairly cleaned out and the hunters headed for the shade

*(Continued on page 6)*

*(Continued from page 5)*

**and prizes were distributed.**

**Since this was the Double Bingo hunt and my Mom is 102 years old, the prizes she sponsored included \$1.02 twice.**

**First BINGO was Joyce Keith who received \$1.02 in modern coins, a 1921-D Morgan silver dollar and two Indian Head pennies.**

**Second BINGO was Walt Hoessle who received \$1.02 in modern coins, two silver half dollars and two Indian Head pennies.**

**Third BINGO was Mary Stone who was awarded \$1.02 in modern coins, 4 silver quarters and two Indian Head pennies.**

**Fourth BINGO was Win Faires who got \$1.02 in modern coins, ten silver dimes and two Indian Head pennies.**

**Fifth BINGO was Ron Graves who received \$1.02 in modern coins, a \$1 silver certificate and two Indian Head pennies.**

**After the BINGO awards, bingo numbers were drawn and with two sets of bingo numbers, there were two winners for each drawing.**

<b>Drawing #1</b>	<b>Dan DiCenso Joyce Keith</b>	<b>1851 Large Cent 1847 Large Cent</b>
<b>Drawing #2</b>	<b>Greg Lewis Steve Erickson</b>	<b>1914 Barber Dime 1902-O Barber Dime</b>
<b>Drawing #3</b>	<b>Allen Jordan Win Faires</b>	<b>2002-S Silver Proof Quarter 1995-S Silver Proof Quarter</b>
<b>Drawing #4</b>	<b>Mike Magee Walt Hoessle</b>	<b>10 Dollar Coins from Bruce 15 Dollar Coins from Bruce</b>
<b>Drawing #5</b>	<b>Joyce Keith Joyce Keith</b>	<b>1945-S Silver War Nickel 1945-S Silver War Nickel</b>
<b>Drawing #6</b>	<b>Dan DiCenso Walt Hoessle</b>	<b>1922 Peace Dollar 1923 Peace Dollar</b>
<b>Drawing #7</b>	<b>Marty Stone Ron Yamiolkoski</b>	<b>2022 Uncirculated Coin Set 2022 Uncirculated Coin Set</b>
<b>Drawing #8</b>	<b>Devan Romero Walt Hoessle</b>	<b>2023 Queen Elizabeth 2 Pound 2023 King Charles 2 Pound</b>
	<b>Mary Sable</b>	<b>SpyderCo Token</b>

*(Continued on page 7)*

*(Continued from page 6)*

**Congratulations to Joyce Keith and Walt Hoessle who each made four trips to the prize table.**

**After the final drawing, the Take-A-Penny, Leave-A-Penny service was reopened and all the remaining tokens were exchanged for wheat pennies. Amazingly, only three tokens were not exchanged. Mary Sable found one of the missing tokens in the hunt field and two are still missing. If you are hunting in Robby Ferrufino Park and discover N44 or G57 I will exchange them for a silver dime.**

**Earlier this year I was at the Boulder coin show looking for coins that would make good hunt prizes. At the show I ran into Jeff Lubbert who was shopping for coins for the club safe and Rush to the Rockies. We were talking to one of the local dealers and Jeff asked him if he had any coins specific to Colorado. The guy said yes, Jeff purchased the coin from him and handed it to me. He said I should use it for one of my prizes. I was extremely grateful and I stashed the coin away with the others I had purchased. When I got home I took a better look at the coin and realized that it was minted to commemorate the 100th anniversary of Yuma County, Colorado.**

**Over the last couple of years I have been doing research into my great grandfather, Andrew Pierson, who emigrated from Sweden to Yuma County in 1886. After he retired from farming, he worked as a janitor in the Yuma County Courthouse which is pictured on the coin. After I told this story to Jeff, he said there was no way I could give it away in a drawing. I kept the coin and I replaced it in the drawing with the two English two-pound coins. This coin will be a treasured part of my collection.**

**As always, I received many generous contributions of prizes including a very nice SpyderCo knife. There is never a shortage of volunteers and all the help with registration, set-up, planting, prizes and clean-up makes for a very smooth hunt. Thanks to all that pitched in and as always, thanks, Mom.**

# *The Prez Sez*

*by Jeff Lubbert*

I have often heard the question “How do you travel with a detector?” which I have done dozens of times. I always breakdown my machine(s) and place them in my carry-on bag. I always take coils off their lower rods to make it fit in the bag. Many times I take the arm cuff off as well, it really helps it pack down smaller. I make sure that all control box screens are protected in one form or another. It is amazing how small modern detectors can breakdown. I have been known to get three detectors in a single carry-on bag plus a few essential clothes as well.

One thing is for sure, most airlines mandate that any lithium battery NOT be placed in your checked luggage. The reason for this is the issues that lithium batteries had with exploding or catching fire at random times. If the lithium battery were to catch fire while in your carry-on bag the flight crew can deal with the issue. If the lithium battery catches fire while in your checked bag, there is nothing that anyone can do about it while the plane is in the air. So, yes, any rechargeable detector is supposed to be carried-on.

Obviously any digging tool should be in your checked-in bag(s). There have been times that I have gotten to my destination and the first thing I did was drive to the local Home Depot or Walmart and picked up a standard #2 spade. At the New York event, Pound the Ground, Ken and I found spades on clearance for \$10. Most of the time you can pick up a garden spade or similar type digger for under \$20. If you are going to a beach destination a spade will work just fine on a sandy beach. But if you are hoping to get into the water I hope you have and take a beach scoop. Recovery of targets under water is difficult and frustrating at best and a good beach scoop really makes a difference.

And yes, you should check with laws and ordinances about detecting BEFORE you travel to a location with a detector expecting to detect. I have traveled to a destination and knew before I arrived that I could detect the property at the Air B & B we stayed at. And, I found out that I could detect the local parks.

If you have questions about traveling with detectors, please do not hesitate in contacting me.

*Jeff*

# Breakfast Club 8/4

## by Chris Davis

We had an excellent turnout for our August 24 Breakfast Club outing. I bet we had at least 30 attendees. Alan B. actually showed up for a visit. I think he took a left when he should have taken a right when he was driving around in Indianapolis. With such a large group, we opted to take our hunt to City Park. It was a warm day, temperatures running up to 88, and not a cloud in the sky. At least City Park has lots of trees.

One of the problems with hunting such a large park, folks get spread out, and I have a difficult time keeping track of what was found. According to reported finds, and to the best of my limited knowledge, I did best on change with \$5.57. This was only because Jeff M. quit at 11:00 with \$5.01. Had he hunted another 30 minutes, he would have easily surpassed me. Only 3 rings were recovered. Randy got one, Mary got one and I got the last. None are likely to win Find of the Month, but a ring is a ring is a ring, and finding a ring is much better than a sharp stick in the eye. If you ignore the wonderful stainless steel fork I found, the best find was probably a Caesar Cypher Decoder picked up by Jeff's buddy, Scott. Bruce M. found up a rusty pocket knife. I made an interesting find. It appeared to be just a clump of rust, but closer examination barely revealed the ends of 2 keys.

*(Continued on page 14)*

# Breakfast Club 8/19

by Roy Neys

Seventeen of my closest friends gathered in the parking lot of the Looking Good Restaurant. Well, nineteen if you count Marty and Raffi, but Marty informed us that they were going to Cherry Creek Park to frolic on the beach and do a little water detecting. I figured they just wanted to check out the sun worshippers but who can blame them. When we finally left the parking lot it was a balmy 81 degrees.

Where are we going? Bellevue Park. Where is that? On Bellevue. Where do we park? It's interesting that people always ask because it is nice to have a central location where everyone can meet and show off their finds. Yeah, right. Of course, Even though I was the last one to the park, I was the only one at the designated parking spot. Consequently, I didn't get many pictures or texts from folks for that matter letting me know how good they all did. Bellevue is a big Park and it connects with Progressive Park to the south via a bike path under Bellevue Ave. It's almost the size of City Park; a little bigger than Cheeseman Park. By 10 o'clock Bellevue Park started to fill up with picnickers and little kids. I forgot about the train that goes down the gulley and the petting zoo. Most of the group migrated to Progressive Park.

We had a couple of new people in attendance. The man I took under my wing for a little guidance was brand new to the hobby so, I took the time to help him the best as I could. I was encouraged by his great attitude even though he has some challenges. Don't we all. He has a great machine so I think he will do well. I would like to give Jeff Mc. a special thank you for helping the other Newbies One man Chris, Jeff was helping and the first target Chris retrieved was a beautiful bling ring. I'm sure we will see this one on the finds table. Yam found a nice ring with a pretty blue stone in it. Steve was reported to find a very nice Sterling Silver ring but he got away before I could get a picture.

VP Mark found \$2.93 and a train token (I found one too) which was pretty close to what Mike found too. I think for the most part everyone had a good time. If not, they have my blessings to pick the next place to go.

Happy trails, everyone, I'll see you at the next Breakfast Club which will be the first Friday of September.

### Eureka! THC Club Meeting August 11, 2023

#### CALL TO ORDER 7:32 PM

The monthly Eureka! THC Club meeting was held Friday August 11, 2023 at the Clements Community Center, Lakewood, CO. There were 60+ present

**Welcome** – Jeff Lubbert, President

**The ticket table and FOM table will close once the Club meeting is called to order. Each will re-open at the break.**

Treasurers Report – Linda Kibler

#### SPEAKERS

Tony Frangella & Ken King

Tony and Ken explained how to research possible sites to detect

#### HUNTS

July 23 – The Great Pirate Treasure Hunt / Majestic View Park - Marty

August 13 – Double Bingo Hunt / Robby Ferrufino Park - \$25 per member – Dan P

September 10 – Harvest Hunt / Rhyolite Regional Park, Castle Rock - \$25 per member – Sue R

Members MUST register by 9-8-23

October – CoinHuna – members only – Jeff

Breakfast Club – meets the 1<sup>st</sup> Friday and the 3<sup>rd</sup> Saturday monthly at Lookin' Good Restaurant, Lakewood

#### FINDS OF THE MONTH

Gold – Brian Henry

Coin – Jeff McClendon

Artifact – John Olson

Token – Cindy Bockenstedt

Jewelry – Ron Graves

#### COIN DRAWINGS

1858 Flying eagle cent – Bill Manning

1976 S 40% half dollar – Chuck Hedberg

1868 Shield nickel – Glen Thompson

1854 Large cent – Marty Stone

.3 Gram gold nugget – Steve Erickson

1866 3 cent nickel – Greg Lewis

1902 Barber quarter – Bob Tucker

Civil War token – Jeff Lubbert

1875 Seated dime – Rick Rochanbeau

1854 Half dime – Marcus Lieberman

**50/50** – Jeff McClendon

**HOLIDAY** – 1921 Morgan dollar - Steven Eredia

**MEMBERSHIP** – Bobby Manning

#### ADJOURN 9:29 PM

Respectfully submitted,  
Nancy Faires  
Secretary  
Eureka! THC

# About Soundoff

**Soundoff** is the official newsletter of the Eureka! Treasure Hunters Club, Inc. (Eureka!). Mailing Address: PO Box 101385, Denver, CO 80250-1385.

Opinions expressed in **Soundoff** are those of the authors and do not necessarily reflect those of the club or its members. Publication of information in **Soundoff** constitutes no guarantee of accuracy. Use of any information found in this publication is at the sole risk of the user. Neither Eureka!, nor its officers, nor **Soundoff**, nor its editors or contributors assume any liability for damages resulting from use of information in this publication. **Soundoff** is typically placed on the club's website the evening of the first Friday of the month.

## Submissions

Articles, letters and short items of interest on prospecting, detecting and treasure hunting topics are welcomed and encouraged. All items submitted for publication are subject to editing. Submittals for publication or correction of errors may be made by e-mail in ASCII text format or MS Word. All article submissions must be received by the editor no later than the deadline of the month (see calendar) for inclusion in the next month's issue. Include publication information on articles clipped from other publications. **Let's hear your story, ideas or tips - contact your **Soundoff** editor.**

## Copyright

Unless otherwise noted, other nonprofit groups may reprint or quote from any articles appearing in **Soundoff** without prior permission, provided that proper author and publication credits are given and that a copy of the publication in which the article appears is sent at no cost to Eureka! at the above mailing address.

## Advertising

Classified business-card-sized text advertising is free to members for non-business ads. Commercial display ads are available to anyone at the following charges: business card size, \$6.00 per month; 1/4 page, \$12.00 per month; 1/2 page, \$24.00 per month; full page, \$48.00 per month. Advertisers are encouraged to take out ads for 12 months and receive a 3-month discount. No other discounts apply. The treasurer must receive any required payments for commercial ads prior to their inclusion.

## About Eureka!

Eureka! is a Denver-based, Colorado nonprofit organization established in 1973 for the enjoyment of metal detecting, electronic prospecting and treasure hunting. Its purpose is to provide an educational and social forum of mutual benefit for members. Eureka! holds a monthly meeting and conducts various special presentations, hunts and seminars. Members have voting privileges. Membership includes access to all general meetings, selected seminars and outings. Annual dues run April to March and are \$33 for single adult membership, \$42 for a family membership and \$15 for Junior membership. Pro-rating of dues are done for new members joining the club after the April 1 dues date. Club meetings are held on the second Friday of each month, 7:30 p.m., at the Clement Community Center, 1580 Yarrow St., Lakewood, Colorado. Come early to socialize.

## Next Club Meeting

**The Sept 8th meeting will be held at the Clements Center at 7:30 p.m.**
